

Carl Sagan: the prolific astronomer, astrophysicist, cosmologist, and astrobiologist pushed our thinking about what life is, where it can emerge, and how we can inhabit the universe. His papers, books, and television show *Cosmos: A Personal Voyage* asked us to be imagineers – reimagining our universe and our place in it.

**In these times, unprecedented as they are, what is something incredible that you now know? Or something that you knew, but now know more deeply?**
